

NORWOOD

NEVER ORDINARY

◆ Norquest quoting software changes on new PK609:

- Glass beads will now show the drawing of the one chosen in the options. Note that the ovalo and putty show dual drawings but they will be fixed for the next release.
- Lift n Slide handle will no longer have the aluminum finish available, instead they will be stainless steel.
- Slimline door now have the Roma handle option.
- Permaglass quotes now show the ratings.
- New glass option has been added; ClimaGuard Low E 62/27 for comparable glass ratings to Cardinal 366, for more details click on the link;
https://www.guardianglass.com/cs/groups/climaguard/documents/web_content/dev_008058.pdf

◆ Reminder ;

- We have a 5% price increase effective April 1st, 2019 on all products except the Norclad line. Anything sent after Monday April 1, 2019 will have the new discount applied, no exceptions. We will honor the existing price for orders that have been sent in with a purchase order number for 30 days only. If no sign off is received within that 30 day period, your order will be changed to the new discount.

◆ CAD drawing requests ;

- If your units are created in Norquest, the software elevation drawings should be used. However, if you have custom components and need CAD drawings, keep in mind that there is a charge of \$50 list per drawing after the 2nd revision for each change. Example: Rev. 5 will have \$150 list add on for the cad drawing.
